**IMPACT:** State

**Summary of Legislation:** This bill requires a Bureau of Motor Vehicles Commission (BMVC) license branch and a full-service license branch run by a contractor to use express lines for service.

**Effective Date:** July 1, 2007.

**Explanation of State Expenditures:** For the BMVC, there may be expenditures for additional telephone lines to accommodate any increase in phone calls for express line service for those license branches affected by long lines. Not all license branches will be affected by call-ahead service since some license branches rarely, if ever, experience a need for call-ahead service. The fund affected is the state License Branch Fund, which supports the operation of the license branches throughout the state.

Currently, license branches provide one public phone number for each license branch. In FY 2006, the BMVC spent approximately \$408,400 for local telephone service. In addition, there may be expenditures to the current computer system (STARS) to allow for express line service.
